

## **December 2004: New Secretary/Treasurer**

When I took this job I promised the members a monthly accounting of USBA activities, including finance and membership reports; as well as membership cards. Those things I have done. This has been a most interesting adventure as making mistakes and correcting them usually is.

Somewhere along the way I started to suffer from "burnout." Now a face has appeared on the scene and I have recommended to the Board that he be appointed to the office and I will ride off into the sunset.

I extend my sincere thanks and appreciation for the support of you, the members.

Hopefully, next month the new guy will be on board, he is:
